

Ajori is a design dedicated to garlic, an inseparable companion to mankind for more than 7000 years.

Thank you

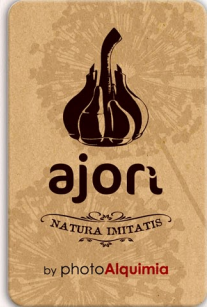

The object you have in your hands is like a bottle, which has been tossed into the sea many years ago and contains a message.

Ever since we conceived the idea, enthusiastic craftsmen have offered their skilled hands, minds and souls to turn Ajori into a tangible object so it could one day reach someone like yourself.

The cycle finishes with you.

Thank you very much. We hope you enjoy your Ajori.

Carlos Jiménez & Pilar Balsalobre
Design Team **photoAlquimia**

Handle

The wooden handle is finished with an anti-stain treatment, which preserves its original look and feel.

Please wash by hand and remember you can help protect the wood by applying a bit of sunflower oil with a soft cloth.

Salt & Pepper shaker

The container, which includes three orifices, is used to hold table salt. For pepper or any other ground spice, use the container that has a single orifice.

If you live in a humid area, you can add a few grains of rice in order to soak up any excess moisture and prevent it from clumping.

Olive oil & Vinegar bottle set

You can clearly differentiate each bottle by the color of the anti-drip spouts.

Green was chosen for the oil and topaz for the vinegar, soy sauce or any other dressing you care to use.

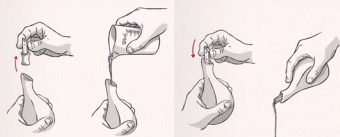

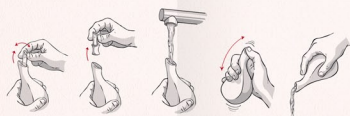

Sauce containers

The set includes two containers, which come with a lid and a little spoon for your sauces.

You decide which ones you want to serve: mustard, chimichurri, hot sauce...

First use / Cleaning

Before using your Ajori you must clean and dry all of its components. You may use the dishwasher, however we recommend you clean it by hand, using a soft liquid soap in order to preserve it and enjoy its softness.

Refill

Before refilling your olive oil and vinegar bottle set, make sure the inside is completely dry. You can use a measuring cup to refill. Just remember, its capacity is limited to 125 cc/ml. Make sure the glass spouts is well adjusted for a correct use.

Especificaciones

Ceramic	Porcelain 1400° C. Color: Off-White.
Glass	Anti-drip spouts, hand carved in natural colored borosilicate glass.
Wood	Hand-carved handle, with an anti-stain treatment especially designed for wood.
Silicone	All joints and caps are made with platinum silicone.
Fixings	All nuts and bolts are made with stainless steel and brass.
Eco-Packaging	The gift box is made with 100% recycled cardboard and the screen-printing is done by hand.

All materials used comply with international food regulations.

Replacement & spare parts

In case any of the pieces of the set breaks accidentally, don't let your Ajori be incomplete. Contact us via email as we can provide and ship any spare parts you may need.

Transportation

The complete set is designed for stability when transported. Just make sure it doesn't suffer any abrupt or sudden movements.

NATURA IMITATIS

Designers:

Carlos Jiménez & Pilar Balsalobre

N²

Made in Spain & Portugal

NATURA IMITATIS

"Natura imitatis", comes from Latin and means imitating nature.

Throughout millions of years, nature has perfected its best designs to perpetuate a balanced life, by maintaining its rich diversity and expressing its beauty.

Man had not yet been born.

NATURA IMITATIS is a collection of designs inspired by nature and are charged with a special kind of energy that transforms them into live objects with an enchanting story to tell. A story that says something more than meets the eye. These soulful objects are made for those who feel the need to reconnect with nature, beauty and restore humane values.

Ajori is part of this collection and has been created by skilled craftsmen who use natural, recyclable materials, which are respectful with our environment.
